CASTLE DALE

CASTLE DALE, Oct. 28.—With the rendition of a program Huntington last night welcomed the arrival of the electric current into that town—the fifth community in Emery county to enjoy this modern necessity. The "juice" was switched on at 6 o'clock and following the act the people of Huntington, joined by a large number of well wishing friends from all the neighboring towns, gave themselves up to the spirit of the celebration, topping it off with dancing in both of the commodious halls. The streets and buildings were beautifully decorated for the occasion, many of the trimmings being shipped from Salt Lake City. The company did itself proud in the decorations and lighting effects, making excellent use of the opportunity in displaying the uses and advantages of electricity.

Tuesday morning at 10 o'clock is set as the opening hour for the sale, and lunch will be served beginning at 12 o'clock noon. Dancing will be indulged in from 8 to 12 o'clock that evening. Opportunities For the Careful Real Estate Investor.....

We believe there are people in Eastern Utah who are willing to make a 50 to 100 per cent profit by buying property at present prices—people who know what the great coal camps surrounding Price are eventually going to do towards the upbuilding of this man's town—people who have been here and have seen the town depressed at intervals, and who can see the profits to be made in buying real estate—farms and city property—in many instances at half what it is actually worth.

We have a very large list of business and residence properties at Price, Helper, Scofield, Wellington and elsewhere, besides any number of farms that are improved and producing, unimproved lands and grazing propositions. All, or most of these, may be had on terms or at BED-ROCK FOR CASH. We will be pleased to show any of them in person or will give details by letter. Our BARGAIN LIST IS LARGE.

We write plate glass, steam boiler, fidelity, live stock, automobile, accident and health and fire insurance. Only the best companies. INDEPENDENT OF THE FIRE INSURANCE TRUST, making and maintaining our own rates. "We'll Go Your Bonds." Write, telephone or telegraph for rates. We do business anywhere in Utah.
